Experience

Front-end Engineer | OpenCommerceGroup

May 2020 - Present | Hanoi, VN

- ▶ Be a senior member of Front, the team responsible for all storefront items in the OCG ecosystem: [ShopBase](#), [PrintBase](#) and [PlusBase](#).
- ▶ Maintain native apps such as the **Review**, **Upsell**.
- ▶ Implement several features of default themes like **Inside** and **Roller**.
- ▶ Help technical leader to implement core modules of **Storefront Next** engine.
- ▶ Initialize and build **Theme CLI** and **Theme Editor v2** from scratch.
- ▶ Ideate and document guidelines for theme partners.
- ▶ Open-source [vue-tiny-validate](#), a 1.4KB gzipped Vue validate library.
- ▶ In charge of discovering, documenting technical solutions as well as delegating front-end work to members.
- ▶ Provide internal members with coding guidelines and seminars. Help technical leader to conduct interviews for hiring new front-end engineers.
- ▶ Lead a team of 3 members in developing a **ShopBase Design System**.
- ▶ Technologies used: vanilla JS, Typescript, Vue, Vuex, SASS, Webpack, Vite, Fastify, Jenkins, GitlabCI, Docker, Jest, etc.

Freelancer | FoxEcom

Oct 2020 - Mar 2021 | Hanoi, VN

- ▶ Collaborate in a team that builds the [Minimog](#) theme, the most popular Shopify theme on ThemeForest in 2021.
- ▶ Build several pages and components from scratch, such as **Blog**, **Wishlist**, **Instagram feed**, **Countdown Timer**, etc.
- ▶ Technologies used: Liquid, JSX, JS, SCSS, TailwindCSS, Webpack.

Front-end Engineer | Bravebits

Feb 2019 - Mar 2020 | Hanoi, VN

- ▶ Be a part of the team behind [PageFly](#), #1 Page Builder app in the Shopify App Store.
- ▶ Build several parts of PageFly, including **analytics**, **page outline**, **page editing and creating process**, etc.
- ▶ Create **PageFly Design System** to improve the app's speed and user experience.
- ▶ Integrate third-party Shopify apps like **AliReview** and **Judge.me** to PageFly.
- ▶ Provide technical support to worldwide customers.
- ▶ Technologies used: Typescript, React, styled-components, Webpack, ExpressJS, MongoDB.

Embedded Software Intern | SVMC

Jul 2018 - Aug 2018 | Hanoi, VN

- ▶ Work in a lab where I learn a lot about OOP and DSA in the C++ language.
- ▶ Participate in the Samsung Summer Hackathon and win **2nd place** for the **Car Rental Management** app.
